INSTRUCTIONS TO EXAMINERS

You should remember that your marking standards should reflect the levels of performance of Advanced Level candidates, mainly 18 years old, writing under examination conditions.

Positive Marking

You should be positive in your marking, giving credit for what is there rather than being too conscious of what is not. Do not deduct marks for irrelevant or incorrect answers as candidates penalise themselves in terms of the time they have spent.

Mark Range

You should use the whole mark range available in the mark scheme. Where the candidate's response to a question is such that the mark scheme permits full marks to be awarded, full marks **must** be given. A perfect answer is not required. Conversely, if the candidate's answer does not deserve credit, then no marks should be given.

Alternative Answers / Layout

The answers given in the mark scheme are not exhaustive and other answers may be valid. If this occurs, examiners should refer to their Team Leader for guidance. Similarly, candidates may set out their accounts in either a vertical or horizontal format. Both methods are acceptable.

Own Figure Rule

In cases where candidates are required to make calculations, arithmetic errors can be made so that the final or intermediate stages are incorrect. To avoid a candidate being penalised repeatedly for an initial error, candidates can be awarded marks where they have used the correct method with their own (incorrect) figures. Examiners are asked to annotate a script with **OF** where marks have been allocated on this basis. **OF** always make the assumption that there are no extraneous items. Similarly, **OF** marks can be awarded where candidates make correct conclusions or inferences from their incorrect calculations.

Quality of Written Communication (QWC)

Once the whole script has been marked the work of the candidate should be assessed for the Quality of Written Communication, using the criteria at the end of the mark scheme. The mark should be shown separately on the candidate's script.

Synoptic Assessment

Synoptic assessment is located in the last question. Candidates will be required to integrate their knowledge, understanding and skills learned in different parts of the A Level course.

www.theallpapers.com

4 (f) Explain two non-financial issues that may be raised during the radio programme.

Discussion of social accounting factors

Unemployment of manufacturing personnel (1) and effect on families (1). But acceptance of contract may create a few new jobs (1) and may guarantee other jobs in the business (1); non-acceptance may jeopardise whole business if competitor buys from Selbat (1) and undercuts Gwock's price (1). max 4 marks

Non-renewable resource (1) but Gwock could perhaps ensure that new trees are planted in place of each one felled (2).

Reputation of business (1) - could jeopardise jobs (2).

max 4 marks Overall max 5 marks

QUALITY OF WRITTEN COMMUNICATION

After the candidate's script has been marked, the work should be assessed for the Quality of Written Communication, using the following criteria.

Marks

- Accounts and financial statements are unclear and poorly presented. There is little or no attempt to show workings or calculations. Descriptions and explanations lack clarity and structure. There is very limited use of specialist vocabulary. Answers may be legible but only with difficulty. Errors in spelling, punctuation and grammar are such that meaning is unclear.
- 1-2 There is some attempt to present accounts and financial statements in an appropriate format. Workings are missing or are not clearly linked to the answers. Descriptions and explanations are understandable but they lack a logical structure. There is some use of specialist vocabulary but this is not always applied appropriately. In most cases answers are legible, but errors in spelling, punctuation and grammar are such that meaning may be unclear.
- 3-4 Accounts and financial statements are generally well presented but there are a few errors. Workings are shown and there is some attempt to link them to the relevant account(s). Descriptions and explanations are usually clearly expressed but there are some weaknesses in the logical structure. There is a good range of specialist vocabulary which is used with facility. Answers are legible. Spelling is generally accurate and the standard conventions of punctuation and grammar are usually followed.
- 5 Accounts and financial statements are well organised and clearly presented. Workings are clearly shown and easy to follow. Descriptions and explanations are clearly expressed.

Arguments are logically structured. There is wide use of specialist vocabulary which is used relevantly and precisely.

Answers are clearly written and legible. Spelling is accurate and the standard conventions of punctuation and grammar are followed so that meaning is clear.
