Mark Scheme

2008 examination - June series

Mark schemes are prepared by the Principal Examiner and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation meeting attended by all examiners and is the scheme which was used by them in this examination. The standardisation meeting ensures that the mark scheme covers the candidates' responses to questions and that every examiner understands and applies it in the same correct way. As preparation for the standardisation meeting each examiner analyses a number of candidates' scripts: alternative answers not already covered by the mark scheme are discussed at the meeting and legislated for. If, after this meeting, examiners encounter unusual answers which have not been discussed at the meeting they are required to refer these to the Principal Examiner.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of candidates' reactions to a particular paper. Assumptions about future mark schemes on the basis of one year's document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

Further copies of this Mark Scheme are available to download from the AQA Website: www.aqa.org.uk

Annotation of Scripts

The following conventions will be used by examiners marking scripts:

AO2 (Reaction and Response)	AO4 (Content)
® written in the margin to indicate reaction/response relevant to AO2 where this includes reason/justification of opinion.	© written in the margin to indicate information relevant to AO4, derived from a source other than the current Preliminary Material and relevant to the question set.
R written in the margin to indicate reaction/response relevant to AO2 when no justification is given.	C written in the margin to indicate information relevant to AO4, derived from the Preliminary Material and relevant to the question set.
	T written in the margin to indicate information generally relevant to the topic.
Rep written in the margin to indicate repetition of information relevant to AO4 or AO2.	
Irr vertical line in the margin = irrelevant/inappropriate material.	

The mark for AO4, AO2 and AO3 respectively written at the foot of an answer accompanied by a word or phrase **quoted from the criteria for assessment** as published in the specification.

Question 1a

Décrivez les influences sur les Français de **deux** des médias en France. Trouvez-vous ces influences bonnes ou mauvaises pour les Français?

C =	AO4 content from PM	R =	good AO2 point	T =	information about the topic
© =	AO4 content not from PM	® =	justified AO2 point		
Rep =	repeated point	Irr =	irrelevant/incorrect material + vertical line in margin		

A02	Reaction/response (These marks are awarded based on the extent to which the candidate answers the question set)	Amplification
15-18	The answer is clearly focused on the question and displays a logical and coherent personal reaction to the question which is well justified by clearly stated opinions.	Descriptions of a number of influences of the chosen media with a firm personal conclusion.
11-14	There is clear evidence of personal reaction to the question, but this is not consistently maintained. There is some justification, but the consistency of the opinions is variable.	A similar approach but a less-coherent argument focussing on a narrower range of influences.
7-10	The answer lacks focus and ideas are not clearly organised. Some personal reaction to the question is evident, but justification is weak.	The notion of 'influence' is less apparent and weaker personal judgement.
3-6	This is a limited personal reaction to the question, but no justification for points made.	One media only described with a weak or no personal conclusion.
1-2	There is virtually no personal reaction to the question, but there is a little reaction to the topic.	
0	There is no evidence of any personal reaction/response.	

AO3	Knowledge of Grammar (These marks are awarded based on the degree to which the candidate uses structures and grammar as outlined in the specification)
8-9	The manipulation of most structures is good. There are still some inaccuracies, but these tend to occur in attempts at more complex structures.
6-7	The manipulation of basic structures is generally sound. There are attempts to use more complex structures, often successfully.
4-5	There is some awareness of structure but basic errors are still frequent. Communication is generally maintained.
2-3	The level of manipulation of structures and the number of errors make comprehension difficult.
0-1	Shows little or no grasp of grammatical structure. Errors are such that communication is seriously impaired.

A04	Content /Knowledge of Society <i>(These marks are awarded based on the quality of the evidence that the candidate uses to support the argument in AO2)</i>	Amplification
23-27	The answer is well illustrated with descriptions which are logically and coherently developed and do not depend exclusively on the preliminary material. Relevant points are clearly stated and there is definite evidence of reading around the topic, including good use of topic-specific vocabulary. The quality of the evidence and understanding of the topic are very good.	<ul style="list-style-type: none"> • News/current affairs broadcasting • Reality television/Entertainment/Demise of live culture • Advertising • Public information • Educational/cultural broadcasting • Internet gaming/obesity • Communications (mobile phones) • French film industry.

1-4	The answer includes very little factual evidence. The quality of the evidence and understanding of the topic are poor.
