Time allowed: 1 hour

**Instructions**

- Use black ink or black ball-point pen. You may use pencil for maps, diagrams and graphs.
- Fill in the boxes at the top of this page.
- Answer **one** question, **either** Question 1 in Section A **or** Question 2 in Section B.
- Do all rough work in this book. Cross through any work you do not want to be marked.
- You must answer the questions in the spaces provided. Answers written in margins or on blank pages will not be marked.

**Information**

- The maximum mark for this paper is 50.
- The marks for questions are shown in brackets.
- You are expected to use a calculator where appropriate.
- You will be marked on your ability to use an appropriate form and style of writing, to organise relevant information clearly and coherently, and to use specialist vocabulary where appropriate. The legibility of your handwriting and the accuracy of your spelling, punctuation and grammar will also be considered.

**Advice**

- Where appropriate, credit will be given for the use of diagrams and where reference is made to your personal investigative work.

Answer **one** question, **either** Question 1 in Section A, **or** Question 2 in Section B.

## SECTION A

Answer **all** parts of the question in the spaces provided.

### The Physical Environment

#### Title: River discharge, landforms and management

- 1 (a) Figure 1** (resource booklet) shows average annual precipitation, runoff and discharge for selected drainage basins in Britain. Outline the relationship between precipitation, runoff and discharge shown in **Figure 1**.

**DO NOT WRITE ON THIS PAGE  
ANSWER IN THE SPACES PROVIDED**

**Question 1 continues on the next page**

**Turn over ►**

- 1 (b) **Figure 2a** is a partly completed flood hydrograph for Clapham Beck, a stream in the Yorkshire Dales.

**Figure 2a**

- 1 (b) (i) Complete **Figure 2a** by adding the information below.

Hours from start of rainstorm	Rainfall (mm)
3–3.5	5.5
3.5–4	4.0

Hours from start of rainstorm	Discharge (cumecs)
12	6.25
16	7.0

(4 marks)

This image shows a full page of white paper with horizontal dashed lines, typical of primary-ruled notebook paper. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

**Question 1 continues on the next page**

1 (c) **Figure 3** (resource booklet) is a photograph of a river landform in the upper course.

**Figure 4** is a black and white photocopy of **Figure 3**.

Label **Figure 4** to show the characteristics of the channel and the landform.

**Figure 4**

(6 marks)

- 1** (d) Study **Figure 5** (resource booklet), the 1:50 000 Ordnance Survey map extract of part of the middle course of the River Tees, a river in north-east England. With specific reference to evidence from **Figure 5**, describe the channel landforms.

**50**

Turn over ►

Do **not** answer this section if you have answered Question 1 in Section A.

## SECTION B

Answer **all** parts of the question in the spaces provided.

### The Human Environment

#### Title: Settlements, hierarchies and spheres of influence

- 2 (a) **Figure 7** (resource booklet) is a photographically reduced 1:50 000 Ordnance Survey map extract showing part of East Anglia.

**Figure 8** partly shows the services present in four settlements. These are in sequence, beginning with the lowest order settlement and service.

**Figure 8**

Settlement (grid reference)	Services indicated on the OS map
Littlebury Green (4838)	Phone box, church
Littlebury (5139)	Church, post office, pub
Great Chesterford (5042)	2 churches, post office, pub, railway station
Saffron Walden (5438)	8 churches

- 2 (a) (i) Complete **Figure 8** by adding the rest of the information for Saffron Walden.  
(4 marks)

- 2** (a) (ii) Outline the advantages and disadvantages of this method of identifying service provision and ordering settlements.
