

General Certificate of Education  
November 2004  
Advanced Subsidiary Examination

**MATHEMATICS AND STATISTICS  
(SPECIFICATION B)  
Unit Pure 1**

**MBP1**

Tuesday 2 November 2004 Morning Session

**In addition to this paper you will require:**

- an 8-page answer book;
- the AQA booklet of formulae and statistical tables.

You may use a graphics calculator.

Time allowed: 1 hour 15 minutes

**Instructions**

- Use blue or black ink or ball-point pen. Pencil should only be used for drawing.
- Write the information required on the front of your answer book. The *Examining Body* for this paper is AQA. The *Paper Reference* is MBP1.
- Answer **all** questions.
- All necessary working should be shown; otherwise marks for method may be lost.
- The **final** answer to questions requiring the use of tables or calculators should normally be given to three significant figures.

**Information**

- The maximum mark for this paper is 60.
- Mark allocations are shown in brackets.

**Advice**

- Unless stated otherwise, formulae may be quoted, without proof, from the booklet.

---

Answer **all** questions.

---

- 1 (a) Given that  $x^2 + 6x + 4 \equiv (x + a)^2 + b$ , find the values of the constants  $a$  and  $b$ .  
(2 marks)
- (b) Hence, or otherwise, find the exact solutions of the equation  $x^2 + 6x + 4 = 0$ .  
(2 marks)
- 2 The line  $PQ$  has equation  $5x + 3y = 10$  and  $P$  is the point  $(8, -10)$ .
- (a) (i) Find the gradient of the line  $PQ$ . (1 mark)
- (ii) Find an equation of the line through  $P$  that is perpendicular to the line  $PQ$ .  
(2 marks)
- (b) The line  $QR$  has equation  $y = x - 6$ . Calculate the coordinates of  $Q$ . (3 marks)
- (c) Find the coordinates of the point  $S$  such that  $(6, -4)$  is the midpoint of  $PS$ . (2 marks)
- 3 A curve has equation  $y = x^3 - 3x^2 - 9x - 8$  and passes through the point  $P(3, -35)$ .
- (a) Find  $\frac{dy}{dx}$ . (3 marks)
- (b) Show that the curve has a stationary point at  $P$  and find the coordinates of the other stationary point of the curve. (4 marks)
- (c) State, with a reason, whether  $P$  is a maximum or minimum point. (2 marks)
- (d) Show that the curve crosses the  $x$ -axis at a point where the  $x$ -coordinate lies between 5.0 and 5.1. (2 marks)
- 4 An arithmetic series has first term 5 and common difference 6.
- (a) The sum of the first  $n$  terms of the series is  $S_n$ . Show that  $S_n = 3n^2 + 2n$ . (3 marks)
- (b) Given that  $S_n > 2640$ :
- (i) show that  $(n + 30)(3n - 88) > 0$ ; (1 mark)
- (ii) find the least possible value of the positive integer  $n$ . (2 marks)

- 5 (a) Solve the equation

$$\tan 3x = -1$$

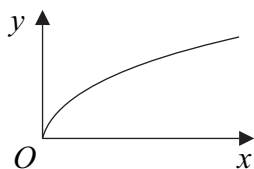

giving all solutions in the interval  $-90^\circ < x < 90^\circ$ . (5 marks)

- (b) Describe fully the geometrical transformation that maps the graph of  $y = \tan x$  onto the graph of  $y = \tan 3x$ . (2 marks)

- 6 The function  $f$  has domain  $0 \leq x \leq 9$  and is defined by  $f(x) = \sqrt{x} - 2$ .

- (a) (i) Find  $f(0)$  and  $f(9)$ . (1 mark)

- (ii) The graph of  $y = \sqrt{x}$  for  $x \geq 0$  is sketched below.

Hence sketch the graph of  $y = f(x)$ , stating clearly the values of the intercepts on the coordinate axes. (3 marks)

- (b) Find the range of  $f$ . (2 marks)

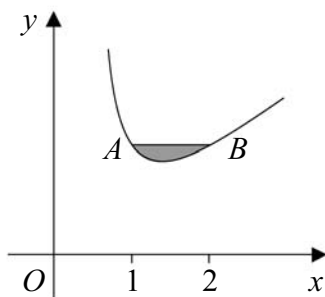

- (c) The inverse of  $f$  is  $f^{-1}$ .

- (i) Find  $f^{-1}(x)$ . (3 marks)

- (ii) State the domain of  $f^{-1}$ . (2 marks)

- (iii) Sketch the graph of  $y = f^{-1}(x)$ . (2 marks)

7 The curve with equation  $y = 14x + \frac{16}{x^3}$  is sketched below for  $x > 0$ .

The points  $A$  and  $B$  lie on the curve and have  $x$ -coordinates equal to 1 and 2 respectively.

- (a) Find the  $y$ -coordinates of  $A$  and  $B$  and hence show that  $AB$  is parallel to the  $x$ -axis. (2 marks)
- (b) (i) Find  $\int \left(14x + \frac{16}{x^3}\right) dx$ . (3 marks)
- (ii) Hence calculate the area of the region bounded by the curve and the line  $AB$ , shaded in the diagram. (4 marks)
- (c) The function  $f$  is defined for all non-zero values of  $x$  by

$$f(x) = 14x + \frac{16}{x^3}$$

Prove that  $f$  is an odd function. (2 marks)

**END OF QUESTIONS**
