Answer **all** questions in the spaces provided.

Total for this question: 16 marks

1 Read **Item A** and then answer the questions that follow.

Item A

Grooming Dogs

Jane had worked in a bank for 20 years. She did not enjoy her job because she was tired of being told what to do by other people. So she was not upset when her branch was closed down and she lost her job. This gave Jane the chance to start up a dog-grooming business. Jane's sister, Debbie, had run a successful dog-grooming business and Jane had always dreamed of doing something similar, although she had no past experience.

After discussing the idea with her sister, Jane decided to start up her own luxury dog-grooming business. She will offer very good customer service, using high quality dog-grooming products and providing dog owners with refreshments whilst their dogs are being groomed.

In addition to her personal savings, Jane needs to raise an extra £3000 to start the business. She knows that she will need to show potential investors that the business can make a profit.

Total for this question: 24 marks**2** Read **Item B** and then answer the questions that follow.**Item B*****Raymond's Bakery Ltd***

Raymond's Bakery Ltd is owned by Jenny Raymond. It bakes all its own bread and cakes. The business employs two part-time shop assistants. It is located in a small row of shops near a large industrial estate. However, since a large supermarket opened nearby, business has not been so good.

Jenny, who runs the business, has cut her costs as much as possible. This has meant that her assistants have not had a pay rise for two years and are now being paid the National Minimum Wage. Jenny is worried that her assistants are not enjoying their jobs as much as they did.

To help the business to survive, Jenny is considering starting a sandwich delivery service to the industrial estate. She has decided to conduct market research into the idea. If Jenny decides to go ahead with the sandwich delivery service, she plans to give her two shop assistants greater responsibility. She would make one responsible for sandwich sales and the other responsible for shop sales.
