UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS **GCE Advanced Level**

MARK SCHEME for the November 2004 question paper

9706 ACCOUNTING

9706/04 Paper 4 Problem Solving (Supplementary Topics), maximum raw mark 120

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were initially instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published Report on the Examination.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the Report on the Examination.

CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the November 2004 question papers for most IGCSE and GCE Advanced Level syllabuses.

Grade thresholds taken for Syllabus 9706 (Accounting) in the November 2004 examination.

	maximum	minimum	mark required	for grade:
	mark available	А	В	E
Component 4	120	92	82	44

The thresholds (minimum marks) for Grades C and D are normally set by dividing the mark range between the B and the E thresholds into three. For example, if the difference between the B and the E threshold is 24 marks, the C threshold is set 8 marks below the B threshold and the D threshold is set another 8 marks down. If dividing the interval by three results in a fraction of a mark, then the threshold is normally rounded down.

NOVEMBER 2004

(b) Cash forecast for four months to January 2005

	2004 October \$000	November \$000	December \$000	2005 January \$000
Cash sales	12 (1)	15 (1)	14 (1)	9 (1)
Debtors	30 (1) 42	<u>36</u> (1) <u>51</u>	<u>45</u> (1)	<u>40</u> (1)
Creditors	27 (1)	32 (1)	40 (1)	36 (1)
Wages	28 (1)	28 (1)	28 (1)	28 (1)
Overheads	10 (1)	10 (1)	10 (1)	10 (1)
Dividend				8 (1)
Purchase of machine	<u>-</u>	<u>30</u> (1)		- 92
Net payments Brought forward Carried forward	65 (23) (5) 1 (OF) (28)	100 (49) (28) (77)	<u>78</u> (19) <u>(77)</u> (96)	

[17]

Actions to keep bank balance within overdraft limit

- reduce stock (1) by (82 000 32 000) \$50 000 (1)
- delay purchase of machine (1) saving \$30 000 (1)
 Alternatively hire machine (1) saving most of \$30 000 (1)
- increase selling prices by 5% (1) if this can be done without decreasing volume (1) increasing revenue by \$10 000 (1)
- reduce cost of purchases by 5% (1) \$6 000 (1) by obtaining discounts (1) or buying from cheaper suppliers (1)
- delay payment of dividend (1) \$8 000 (1)
- give incentives to customers to purchase for cash (1)
- negotiate longer credit from suppliers if possible without loss of confidence (1)
- issue shares (1)
- issue debentures (1)
- renegotiate overdraft (1)
 - 1 mark for identification
 - 1 mark for development
 - 1 mark for effect on bank balance

- (e) Cash flow statements are important to shareholders because they show
 - the ability of a business to generate cash internally (1)
 - how much cash has been raised externally (1)
 - the causes of change in liquidity (2) or cash inflows (1) cash outflows (1)
 - viability (1) whether business can generate cash to service finance, pay tax and maintain its fixed assets (1) going concern (1)
 - stability of business (1) reliance upon internal sources (1) external sources (1) for financing
 - profitability and liquidity reconciled (1) shareholders may confuse profitability with liquidity (1)
 - indication of future cash flows (1); capital investment (expansion of activities) and its effect on future cash flows (1)

(1 mark per point + 1 for development)

max [8]

(f) Cash Flow Statement

Cash budget

Based on historical data (1)
An account of the directors' stewardship of funds (1)

Based on future plans (1) For internal use (1)

Cannot (legally) be manipulated (1)

May be adjusted to reflect management policy (1)

A requirement for some companies (1) It may be produced for budgeting purposes (1)

Desirable for management purposes (1)
Often gives rise to the principal budget factor (1)
