## APPLIED INFORMATION AND COMMUNICATION TECHNOLOGY

## GCE Advanced Level and GCE Advanced Subsidiary Level

Grade thresholds taken for Syllabus 9713 (Applied Information and Communication Technology) in the May/June 2010 examination.

|              | maximum<br>mark<br>available | minimum mark required for grade: |    |    |
|--------------|------------------------------|----------------------------------|----|----|
|              |                              | A                                | В  | E  |
| Component 11 | 80                           | 45                               | 41 | 24 |
| Component 12 | 80                           | 45                               | 41 | 24 |
| Component 13 | 80                           | 45                               | 41 | 24 |
| Component 2  | 120                          | 86                               | 74 | 51 |
| Component 31 | 80                           | 46                               | 42 | 27 |
| Component 32 | 80                           | 46                               | 42 | 27 |
| Component 33 | 80                           | 46                               | 42 | 27 |
| Component 4  | 90                           | 75                               | 68 | 37 |

The thresholds (minimum marks) for Grades C and D are normally set by dividing the mark range between the B and the E thresholds into three. For example, if the difference between the B and the E threshold is 24 marks, the C threshold is set 8 marks below the B threshold and the D threshold is set another 8 marks down. If dividing the interval by three results in a fraction of a mark, then the threshold is normally rounded down.

Grade A\* does not exist at the level of an individual component.

Grade Thresholds are published for all GCE A/AS and IGCSE subjects where a corresponding mark scheme is available.
