#### UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

#### MARK SCHEME for the May/June 2006 question paper

#### 0452 ACCOUNTING

**0452/03** Paper 3, maximum raw mark 100

These mark schemes are published as an aid to teachers and students, to indicate the requirements of the examination. They show the basis on which Examiners were initially instructed to award marks. They do not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the Report on the Examination.

The minimum marks in these components needed for various grades were previously published with these mark schemes, but are now instead included in the Report on the Examination for this session.

• CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2006 question papers for most IGCSE and GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

**(b)** The bank statement is a copy of the account of the business as it appears in the books of the bank. This is from the viewpoint of the bank – the business depositing money is a creditor of the bank.

The bank account in the cash book is prepared from the viewpoint of the business – the bank is a debtor of the business which has deposited the money. [2]

#### (b) Reasons for a debit balance

Overpayment of amount due
Cash discount not deducted before payment made
Returned goods after payment of amount due
Payment made to creditor in advance

#### Or other suitable point

#### Any 2 points (1) each

[2]

- (c) A purchases ledger control account acts as a check on the purchases ledger. If there is an error in the purchases ledger it will not be revealed by a control account prepared from the individual accounts in that ledger. [2]
- (d) Payment period for creditors

$$\frac{7485}{89400}$$
 O/F from (a) x  $\frac{365}{1}$  = 30.56 days = 31 days (1) O/F

[2]

(e) 1 Not satisfied – if (d) is more than 14 days
Or – satisfied – if (d) is less than 14 days

(1)

Susan is allowed 14 days credit but is taking an average of 31 days (1) Or suitable explanation based on O/F answer to (d)
