6 Monica has a shop. She writes up the books of account herself but is not an experienced bookkeeper. Her financial year ends on 28 February.

For Examiner's Use

The trial balance she prepared on 28 February 2011 showed a shortage on the debit side of \$720. Monica entered this in a suspense account and then prepared a draft income statement showing a profit for the year of \$3600.

The following errors were later discovered.

- A cheque payment of \$460 to repay a loan from Carlo has been correctly entered in the cash book but \$640 has been debited to his loan account.
- 2 Cash sales of \$850 have been completely omitted from the books.
- 3 A cheque payment for \$900 for goods has been entered in the cash book but no other entry has been made.
- 4 The purchase of new display shelves for \$1200 has been debited to the repairs account.

REQUIRED

(a) Show the journal entries required to correct the above errors. The date and narrative are **not** required.
