## MARK SCHEME for the October/November 2011 question paper

### for the guidance of teachers

# 0452 ACCOUNTING

0452/11

Paper 1, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

(Do **not** award marks for rent receivable if shown as an expense, but you **may** award an OF mark for the profit for the year if arithmetically correct even if rent is included as an expense.) [15]

- (d) Depreciation should be included as a charge to the income statement so that the cost of the non-current asset is spread over the life of the asset or he is following the matching principle (1) and the profit is not overstated (accept accurate or realistic) or he is following the prudence principle (1). [2]
- (e) Increase revenue, increase prices, reduce cost of sales, reduce (control) expenses. (any one)

[4]

#### (d) Yes (1)

Reasons:

- 1 Selling car parts and opening a workshop would increase Vasco's profits (1)
- 2 The percentage of gross profit to sales would increase as the profitability of selling parts is higher than selling fuel (1) [3]

(Not possible to award marks for comments about return on capital as not known)
