

MARK SCHEME for the October/November 2012 series

0452 ACCOUNTING

0452/23

Paper 2, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2012 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Capital Account

2012		\$		2011		\$	
June 30	Cash	2 800	(1)	July 1	Balance	8 200	(1)
	Purchases	350	(1)	Dec 1	Bank	5 000	(1)
	Balance	c/d	13 400	2012			
			16 550	June 30	Profit	3 350	(2) O/F
						16 550	
				2012			
				July 1	Balance	b/d	13 400

[7]

(c) $\frac{3430}{28900} \times \frac{365}{1} = 43.32 = 44 \text{ days}$ (2)

[2]

(d) Unsatisfied (1)

Or satisfied if answer to (c) is 30 or below

[1]

(e) The business may not have enough liquid funds with which to pay the credit suppliers until money is received from credit customers.

Or

If the credit customers pay within the set time the business may be able to pay the credit suppliers within the set time without any significant impact on the bank balance.

Or

If the credit customers fail to pay within the set time it may be necessary to obtain short-term funds in order to pay the credit suppliers.

Any 1 point (2)
