International General Certificate of Secondary Education

CHILD DEVELOPMENT

0637/01

Paper 1

October/November 2006

2 hours

Candidates answer on the Question Paper.
Additional Materials: Answer Booklet/Paper.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.
Write in dark blue or black pen.
You may use a soft pencil for any diagrams, graphs or rough working.
Do not use staples, paper clips, highlighters, glue or correction fluid.

Section A

Answer **all** questions.
Write your answers in the spaces provided on the Question Paper.

Section B

Answer any **two** questions.
Write your answers in the spaces provided on the Question Paper.

Section C

Answer **one** question.
Write your answer on the separate Answer Booklet/Paper provided.

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [] at the end of each question or part question.

For Examiner's Use	
Section A	
Section B	
Section B	
Section C	
Total	

This document consists of **11** printed pages and **1** blank page.

Section A

Answer **all** questions.

1 (a) What is puberty?

.....
.....[2]

(b) Give **two** changes that occur in girls during puberty.

(i)
.....
(ii)
.....[2]

2 Suggest **three** conditions that could cause a child's intellectual development to slow down.

(i)
(ii)
(iii)[3]

- (i)
 - (ii)
 - (iii)
 - (iv)
 - (v)
- [5]

(d) Explain why it is safer **not** to use a tablecloth in a home with a child.

.....

.....

.....

.....

.....[3]

[Total: 25]

- 11 (a) A toddler will require more energy-rich foods as they become more active. Complete the following chart to show how the food groups can be provided by suitable foods for this age group. One example of each has been completed for you.

(i)

Milk and Dairy foods	Food containing fat and sugar	Bread other Cereal and Potatoes	Fruit and Vegetables	Meat, Fish and Alternatives
Full fat milk	Biscuits	Bread	Bananas	mince meat

[10]

- (ii) Plan a meal for a toddler showing the use of some of the food examples you have given in the chart in (i) above.

Meal	Food from the chart

[6]

- (b) Suggest some snacks that could be given to a two or three year old instead of biscuits and crisps.

.....

.....

.....[5]

(c) Explain why a high-fibre diet is unsuitable for young children.

.....

.....

.....

.....

.....

.....

.....[4]

[Total: 25]

12 Sleep problems can be avoided if you establish a simple and soothing bedtime routine at an early stage.

(a) Make a plan for a bedtime routine for a toddler.

Step 1

Step 2

Step 3

Step 4

Step 5

Step 6[12]

(b) Explain **four** reasons why a six month old baby might wake up in the night.

Reason 1

Reason 2

Reason 3

Reason 4[8]

(c) Approximately how many hours sleep are required by each of the following age groups? An example has been completed for you.

Age	Amount of sleep at night
6 – 12 months	12 hours
1 – 2 years	
2 – 3 years	
3 – 4 years	

[3]

(d) Explain why some parents prefer to organise sleep time for their children.

.....

.....

.....

.....[2]

[Total: 25]

Section C

Answer **one** question.

13 Babies and children may suffer from disorders of the skin.

(a) Describe the symptoms of **nappy rash**, its treatment and how it can be prevented.

(b) Other skin disorders include:

- Heat rash or prickly heat
- Urticaria (nettle rash)

With reference to **one** of these, describe the cause, symptoms and how the condition can be soothed.

[20]

14 Most babies are ready to start solid foods at six months old.

(a) Explain how you would know when your baby is ready to start on solids.

(b) Describe how successful weaning can take place.

(c) Suggest **three** foods that could be tried when weaning.
