You are a reporter writing an article about the Mayor's speech. Prepare some notes to use as the basis of your article.

Make **three** points under each heading.

Problems associated with landfill sites

- toxic compounds entering the groundwater
- waste is buried
- leakage

Ways to help manage waste

- protective material
- take great care to line the waste collection
- medical research

[Total: 6]

Exercise 5

Imagine that your newspaper wants you to follow up these notes with a short article.

Look at your notes in Exercise 4 above. Using the ideas in your notes, write a summary of the proposals the Mayor is making.

Your summary should be one paragraph of no more than 70 words. You should use your own words as far as possible.

It is about polluting your own world, destroying pretty sites without noticing. This might cause birth defects you people are growing waste mountain. I hope I could encourage people to throw their own waste in the bin or recycle will be a good thing to do. We would like you to encourage people who don't care.

My adviser

This person is very special to me and I think you would like to know her better this person is my best friend Alia.

I think she's the best person I ever known because when ever I feel upset or in a bad mood she tries to cheer me up and when ever I need a person to talk to she's there for me and listens to what I have to say even if what I say doesn't make sense or sound stupid. She likes helping others.

I think every one will like her because know a days they won't a friend like her she really likes solving others problems and thinks about other more then her self.

I think she would be delighted to come to our school and meet others.

[10]

Dear Councillor,

I heard about the new factory which they would build near our neighbourhood.

I think it is a good idea because I am thinking to work and the factory is will be next to my house, so it faster to get there because I don't have a car now after the accident and know they are trying to fix it.

I hope you would work in the same factory as I will. it's better for you because you are not comfortable in your job because it is really far from where you live.

I wish you would change your mind and work in the new factory.

I would like to know if you are coming or not, try to write me back as soon as possible.

Yours Sincerely

James
