CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the October/November 2012 series

0680 ENVIRONMENTAL MANAGEMENT

0680/42 Paper 4 (Alternative to Coursework), maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2012 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Page 2	Mark Scheme	Syllabus	Paper
	IGCSE – October/November 2012	0680	42

Mark schemes will use these abbreviations:

separates marking points

/ alternatives

• ® reject

A accept (for answers correctly cued by the question)

• (I) ignore

AW alternative wording (where responses vary more than usual)

AVP additional valid point (where there are a variety of possible additional valid

answers)

underline actual word given must be used by candidate (grammatical variants excepted)
 D, L, T, Q quality of drawing / labelling / table / writing as indicated by mark scheme

max indicates the maximum number of marks that can be given

eq equivalent

ORA or reverse argument

• IDEA OF where candidates are expected to make an argument which expresses a particular

idea, but the ways in which they will do this will be many and varied
