## **CAMBRIDGE INTERNATIONAL EXAMINATIONS**

**International General Certificate of Secondary Education** 

## MARK SCHEME for the October/November 2013 series

## **0460 GEOGRAPHY**

**0460/23** Paper 2, maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

**1 (a) (i)** (main) A, [1]

(ii) trigonometrical station, [1]

(iii) scrub/scattered trees, [1]

(iv) mill, [1]

(v) cane track(s), [1]

More than one answer and one is wrong = 0.

(b) (i) north west, [1]

(ii) 312 – 317, [1]

(iii) 3080, [1]

(iv) linear, [1]

(c) [5]

Feature	grid square 1294 only	grid square 1694 only	both these grid squares	neither of these grid squares
Dispensary				✓
Police Station	✓			
Plantations growing two types of crop		<b>√</b>		
School			✓	
Marsh or swamp				✓

More than one tick per row = 0.

(d) line crosses northing 93 11 – 21mm across square, line crosses northing 91 13 – 21mm across square,

[2]

(e) high/upland/hill,

ridge,

(highest point) 480 - 500 metres,

steep slopes,

spur,

peaks,

change in gradient/concave/convex,

steeper in west/gentler in east,

narrower in west/wider in east,

south facing slope steeper than north facing slope,

[4]
