

MARK SCHEME for the May/June 2011 question paper
for the guidance of teachers

0470 HISTORY

0470/11

Paper 1, maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

1 Use of the Mark Scheme

- 1.1 It is not possible to cover every possible type of response within a levels of response mark scheme and examiners are expected to use their professional judgement at all times in ensuring that responses are placed in the correct levels and given an appropriate mark within that level.
- 1.2 Marking must be positive. Marks must not be deducted for inaccurate or irrelevant answers. Half-marks must not be used.
- 1.3 The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response.
- 1.4 Be consistent from script to script and from batch to batch.
- 1.5 Indicate that all answers have been seen.
- 1.6 Do not transfer marks from one part of a question to another.
- 1.7 If a candidate reaches a particular level s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- 1.8 Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- 1.9 **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.**
- 1.10 Where a band of marks is indicated for a level these marks should be used with reference to the development of the answer within that level.

2 Marking

- 2.1 All marking should be in red.
- 2.2 The level, and mark awarded for each part question, **MUST** be shown clearly in the margin of the script towards the end of an answer, e.g. L3/8.
- 2.3 At the end of each question the total mark achieved by the candidate for that question **MUST** be indicated in a circle.
- 2.4 The total mark for each question should be transferred to the front page of the script. The marks for the three questions should be totalled and indicated. The final total for the script should then be circled.
- 2.6 It is not necessary to tick the body of an answer and examiners should refrain from doing so.
- 2.7 Examiners must indicate, in the body of the response, where a level has been achieved and, where appropriate, marks are gained.

3 Assessment Objectives

- 3.1 The Assessment Objectives being tested in each part of a question are:
- (a) recall, description
 - (b) recall, explanation
 - (c) recall, explanation and analysis.

Russia drew closer to France and Britain.'

'In 1912–13, the armies of the Balkan League drove Turkey out of Europe. Austria was alarmed at this as Serbia emerged as the strongest Balkan state.'

'When Serbian conspirators assassinated Franz Ferdinand in 1914 at Sarajevo, the Austrians decided that Serbia was responsible and had to be punished, thus triggering the start of the war.'

'The formation of the Triple Entente and the Triple Alliance meant war was more likely. If one state within one of the alliances was offended by a member of the rival alliance it could lead to many nations being pulled into war.'

The Germans inflicted severe punishment on Russia by taking Finland, the Baltic States, its Polish provinces and the Ukraine. It is not surprising the Allies wanted to heavily punish Germany similar to Germany's treatment of Russia.'

These extremist parties, like the Nazis in Germany, did not believe in democracy and international co-operation. They cared for themselves and ignored the authority of the League.'

'Many extreme parties were nationalist and an aspect of extreme nationalism was militarism. Parties, like the Nazis, built up their armed forces and used aggression against other nations. This was against the aims of the League.'

'Economic rivalry increased and replaced co-operation with many countries being badly hit by loss of exports which in turn lost imports. Some of these countries, such as Japan, turned to expansion.'

The League wanted countries to disarm so that they would not be tempted to use military action to settle their differences.'

'The League's agencies were to raise peoples' awareness on a whole range of social issues.'

'The League was trying to uphold the peace settlement even when founder members thought some terms were too harsh and were willing to make adjustments to the treaties or ignore parts.'

'All members were to have equal voting rights. All decisions in the Assembly and the Council had to be unanimous. This was fine if members agreed with each other, but not when they disagreed.'

Level 4 Explains agreement AND disagreement [5–7]

Both sides of Level 3.

Level 5 Explains with evaluative judgement of 'how far' [8]
