Delete the third paragraph starting: Questions not available at time ...

and replace with

- 1 Which of these statements do you agree with more?  
'A space programme is important for India and there should be a big investment in it.'  
'India should not put investment in a space programme.'  
You should use evidence to justify your answer and consider both views.
- 2 'India should not continue to rely so much on English as a language. Its main language should be Hindi.'  
Explain why this view has been put forward and whether or not you agree with it by looking at evidence for and against it.
- 3 Look at this statement  
'Indian cinema and Television serials show women in a stereotyped way and hold back their progress.'  
How far do you agree? You should use evidence from films and TV but this should support different views. You should not merely describe the plots of serials and films.
