## MARK SCHEME for the October/November 2012 series

## **0654 CO-ORDINATED SCIENCES**

0654/22

Paper 2 (Core Theory), maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2012 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

2	(a) (i)	A ; B, E, F ;		[2]
	(ii)	starch/cellulose/sugar/any other correct;		[1]
	(iii)	0.04 ; (allow 0.03)		[1]
		assing out food that has not been digested ; nrough the anus/as faeces ;		[2]
	(c) (i)	increase (in number of worms emerging) to maxir maximum response at 460/500 Hz ; idea of steeper decrease than increase ;	mum then decrease;	[max 2]
	(ii)	to prevent extinction (of earthworms); reference to effect on food chains/ecosystem; because they improve the soil structure; because they improve soil fertility; other valid point;		[max 2]
	(iii)	less likely to be killed by moles ; more likely to breed ;		[2]
