(d) Air Asia is an example of a low-cost airline.

For
Examiner's
Use

Explain **how** the characteristics of low-cost airlines, such as Air Asia, can:

- serve poorly connected destinations
- reduce fares

[6]

Question 4

Refer to Fig. 4, a map and information about the island of Aruba.

Aruba is located in the southern Caribbean, 15 miles off the coast of Venezuela. It is 19.6 miles long and 6 miles across at its widest point.

Travel to Aruba from the USA, Canada, South America, Europe and the Caribbean is possible with most major carriers, either non-stop or with convenient connections. A passport is required. American, Canadian, and EU citizens do not require visas, nor do most South Americans.

The modern Reina Beatrix Airport, with its shops, restaurants and facilities, has won many international awards. Travellers returning to the USA will pass through US Immigration and Customs upon their departure, so they can pick up their baggage and go when they arrive at their final destination.

Getting around Aruba is quick and easy. The bus service to and from the capital Oranjestad and resort areas is reliable and cheap. Taxis are always available and have set rates. Many visitors rent a car for at least one day to see the sights beyond resort areas. While many tour in the comfort of an air-conditioned motor coach, the more daring may prefer a jeep or all-terrain vehicle.

Fig. 4

(a) Identify the following:

- whether most beach resorts are found along the northern or southern shores of the island
- the name of Aruba's airport
- the name of Aruba's capital

[3]

(b) Explain **three** likely advantages to leisure travellers of staying in a private villa rather than a large resort hotel.

1

.....

.....

.....

2

.....

.....

.....

3

.....
