## Part 3: Translation

Translate the following passage into **Urdu**.

[20]

Not only in the west but also in other parts of the world, modern lifestyles are having an increasingly negative effect on our young people. Children are sitting at home on their own in front of their computers or games machines, and they only go out to play when they are forced to. Often both parents have to go out to work to earn enough money to support the family. They not only have less time to spend with their children, but also do not have time to prepare healthy food at home. This means that more and more families are eating fast food. These foods are very tasty but they are high in fat which experts say is bad for our health. Young people whose families are lucky enough to have plenty of money are also facing an unhealthy future due to lack of exercise and poor diet. On the other hand there are still far too many unfortunate children in the world who are dying from not having enough to eat.
