**READ THESE INSTRUCTIONS FIRST**

**These starting points will be posted on the Teacher Support website at the start of the course. They are to be given to candidates, at the discretion of the Art teacher, at an appropriate point during the course. Candidates must complete their Project work by 31 May 2013.**

The focus of the **Project** should be the development of a sustained piece of studio practice based on **one** of the starting points (1–20) listed overleaf. Investigative research, evaluative and developmental work are required to support the realisation of a major outcome. The **Project** will culminate in a successfully resolved final piece or pieces along with the relevant research and development of ideas.

The starting points have been grouped according to theme and are intended to act as initial stimuli for the candidate's focus of study.

The work submitted for the **Project** may include sketchbook(s), design sheets, maquettes, lens based outcomes, samples, test pieces, large-scale studies, notebooks and/or models.
